## Sixth Grade - Fractions

1) Simplify the (12/5) $\times$ (13/7) without calculator and leave the answer as a fraction in the least form.
<ul> <li>126/15</li> <li>216/25</li> <li>156/35</li> <li>111/20</li> </ul>
2) Simplify the (22/15) $\times$ (23/17) without calculator and leave the answer as a fraction in the least form.
<ul> <li>136/120</li> <li>206/215</li> <li>506/255</li> <li>456/315</li> </ul>
3) Simplify the (21/15) $\times$ (33/7) without calculator and leave the answer as a fraction in the least form.
<ul> <li>693/105</li> <li>543/125</li> <li>393/115</li> <li>193/95</li> </ul>
4) Simplify the (29/15) $\times$ (13/57) without calculator and leave the answer as a fraction in the least form.
<ul> <li>177/215</li> <li>247/755</li> <li>277/635</li> <li>377/855</li> </ul>

5) Simplify the  $(39/25) \times (43/17)$  without calculator and leave the answer as a fraction in the least form.

- 1457/325
- 1817/225
- 1677/425
- 677/105

6)	Simplify	the	(69/15)	× (13/16)	without	calculator	and leave th	ne answer a	as a fractic	n in the	least form
$\mathbf{v}$		นเธ	103/13/	^ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	will local	. Calculator	ai iu icave ii	ic ai iswci d	as a насис	/I I II I II IC	icasi ivii i.

- 497/111
- 537/170
- 897/240
- 797/140

7) Simp	olity the	(69/89) ×	(13/16	) without	calculator	and leave	the answer	rasa t	traction i	ın the	least form.
---------	-----------	-----------	--------	-----------	------------	-----------	------------	--------	------------	--------	-------------

- 897/1424
- 717/1124
- 456/1333
- 797/1234

- 14407/313
- 12367/224
- 17407/534
- 15307/434

9) Simplify the  $(39/29) \times (3/16)$  without calculator and leave the answer as a fraction in the least form.

- 117/464
- 217/454
- 191/384
- 311/344

• 23/10

10) Simplify the (139/9) $\times$ (13/36) without calculator and leave the answer as a fraction in the least form.
<ul> <li>1717/294</li> <li>1517/134</li> <li>1818/223</li> <li>1807/324</li> </ul>
11) Simplify the (17/12) $\div$ (6/9) without calculator and leave the answer as a fraction in the least form.
<ul> <li>17/8</li> <li>21/4</li> <li>23/5</li> <li>15/4</li> </ul>
12) Simplify the $(27/22) \div (11/12)$ without calculator and leave the answer as a fraction in the least form.
<ul> <li>151/111</li> <li>162/121</li> <li>165/101</li> <li>253/123</li> </ul>
13) Simplify the $(7/2) \div (10/12)$ without calculator and leave the answer as a fraction in the least form.
<ul> <li>11/4</li> <li>21/5</li> <li>19/3</li> <li>29/5</li> </ul>
14) Simplify the (17/22) $\div$ (210/120) without calculator and leave the answer as a fraction in the least form.

•	43/	6	6

•	2/1	77
•	34/	′ / /

•	34/	1	q

15) Simplify the $(87/40) \div (80/28)$ without calculator and leave the answer as a fraction in the least form.
<ul> <li>426 / 800</li> <li>509 / 700</li> <li>429 / 600</li> <li>609 / 800</li> </ul>
16) Simplify the (27/40) $\div$ (30/28) without calculator and leave the answer as a fraction in the least form.
<ul> <li>51/97</li> <li>43/88</li> <li>63/100</li> <li>53/78</li> </ul>
17) Simplify the (117 /60) $\div$ (90/27) without calculator and leave the answer as a fraction in the least form.
<ul> <li>217/450</li> <li>117/200</li> <li>111/200</li> <li>177/150</li> </ul>
18) Simplify the $(47/60) \div (47/90)$ without calculator and leave the answer as a fraction in the least form.
<ul> <li>3/2</li> <li>2/3</li> <li>6/7</li> <li>4/5</li> </ul>

19) Simplify the (56/60) $\div$ (78/90) without calculator and leave the answer as a fraction in the least form.
<ul> <li>14/13</li> <li>12/18</li> <li>23/13</li> <li>12/17</li> </ul>
20) Simplify the (66/60) $\div$ (78/70) without calculator and leave the answer as a fraction in the least form
<ul> <li>33/35</li> <li>23/20</li> <li>13/15</li> <li>19/30</li> </ul>
21) Your job is to color wash 3/4 of the school's hall. Your friend agrees to help you and color wash 1/4 of your work. What fraction of the entire hall your friend agreed to color
<ul> <li>6/17</li> <li>4/15</li> <li>2/11</li> <li>9/16</li> </ul>
22) Emy's job is to color wash 2/3 of the drawing room. Her friend agrees to help Emy and color wash 1/2 of her work. What fraction of the entire room Emy's friend agreed to color wash? What fraction of the entire hall Emy will have to do?
<ul> <li>4/5</li> <li>3/4</li> <li>2/3</li> <li>1/3</li> </ul>

23) Tom's job is to color wash 11/15 of the compound wall. His friend agrees to help Tom and color

wash 13/15 of Tom's work. What fraction of the entire wall Tom's friend agreed to color wash? What fraction of the entire hall Tom will have to do?

- 41/155
- 22/225
- 15/219
- 11/135

24) Jack's job is to color wash 12/13 of the school's hall. His friend agrees to help Jack and color wash 13/15 of his work. What fraction of the entire hall Jack's friend agreed to color wash? What fraction of the entire hall Jack will have to do?

- 7/43
- 8/65
- 6/57
- 4/55

25) Your job is to color wash 4/6 of the auditorium's hall. Your friend agrees to help you and color wash 4/5 of your work. What fraction of the entire auditorium's hall your friend agreed to color wash? What fraction of the entire auditorium's hall you will have to do?

- 4/13
- 2/15
- 5/13
- 2/9

26) My mom's job is to color wash 1/4 of the kitchen wall. I agrees to help mom and color wash 4/5 of her work. What fraction of the entire wall I agreed to color wash? What fraction of the entire hall my mom will have to do?

- 3/10
- 1/20
- 4/13
- 2/15

27) Peter's job is to color wash 3/4 of the office wall. His friend agrees to help Peter and color wash 4/8 of his work. What fraction of the entire wall Peter's friend agreed to color wash? What fraction of the entire wall Peter will have to do?

- 4/7
- 3/8
- 2/9

28) Your job is to color wash 3/5 of the school's hall. Your friend agrees to help you and color wash 5/9 of your work. What fraction of the entire hall your friend agreed to color wash? What fraction of the entire hall you will have to do?

- 4/5
- 3/5
- 2/5
- 6/7

29) Mr.John's job is to color wash 3/4 of the room. His son agrees to help John and color wash 4/9 of his work. What fraction of the entire room his son agreed to color wash? What fraction of the entire room Mr. John will have to do?

- 5/12
- 7/17
- 4/13
- 9/20

30) Alex's job is to color wash 3/7 of the clinic. His friend agrees to help Alex and color wash 7/9 of his work. What fraction of the entire clinic Alex's friend agreed to color wash? What fraction of the entire hall Alex will have to do?

- 2/21
- 3/17
- 3/16
- 1/19
