

## Sixth Grade - Percentage

1) Which of the following percentages is equal to 0.35?

- 35
- 3.05
- 0.035
- 3.5

2) Which of the following percentages is equal to 0.54?

- 5.04
- 54
- 0.054
- 5.4

3) Which of the following percentages is equal to 0.85?

- 8.05
- 8.50
- 85
- 0.085

4) Which of the following percentages is equal to 0.56?

- 56
- 5.6
- 0.0056
- 5.06

5) Which of the following percentages is equal to 0.23?

- 0.023
- 2.03
- 2.3
- 23

6) Which of the following percentages is equal to 0.95?

- 9.05
- 9.5
- 95
- 0.095

7) Which of the following percentages is equal to 0.15?

- 15
- 0.015
- 1.05
- 1.5

8) Which of the following percentages is equal to 0.80?

- 0.008
- 80
- 0.08
- 8.0

9) Which of the following percentages is equal to 0.45?

- 0.045
- 45
- 4.05
- 450

10) Which of the following percentages is equal to 0.50?

- 0.05
- 50
- 0.005
- 5.00

11) Sharah's salary is 20% less than Tan's. How much is Tan's salary more than Sharah's?

- 13
- 20
- 25
- 28

12) Lida's salary is 10% less than Larry's. How much is Larry's salary more than Lida's?

- 17.16
- 11.11
- 15.18
- 21.17

13) Sophia's salary is 25% less than Sam's. How much is Sam's salary more than Sophia's?

- 33.3
- 20.1
- 13.3
- 23.3

14) Julia's salary is 30% less than Jon's. How much is Jon's salary more than Julia's?

- 42.8
- 23.7

- 33.6
- 40.2

15) Jessica's salary is 60% less than Jay's. How much is Jay's salary more than Jessica's?

- 180
- 130
- 150
- 120

16) Lily's salary is 80% less than Leo's. How much is Leo's salary more than Lily's?

- 400
- 500
- 300
- 200

17) Eya's salary is 12% less than Earl's. How much is Earl's salary more than Eya's?

- 11.8
- 13.6
- 15.6
- 12.5

18) Ruby's salary is 15% less than Roy's. How much is Roy's salary more than Ruby's?

- 12.4
- 15.9
- 17.6
- 15.9

19) Abby's salary is 23% less than Alan's. How much is Alan's salary more than Abby's?

- 21.5
- 29.8
- 29.7
- 20.7

20) Stella's salary is 45% less than Sean's. How much is Sean's salary more than Stella's?

- 81.8
- 85.3
- 89.6
- 78.6
